

DFM joins Everything FM Framework

4 years ago

[Derwent FM](#) is now an approved supplier on the Everything FM framework; a compliant and flexible solution that enables the delivery of a broad range of FM services to the public sector, devolved administrations and third sector entities.

Everything FM's innovative design offers public sector organisations the opportunity to directly appoint [Derwent FM](#) from Place Group's supply chain, quickly and compliantly without going out to tender.

It also allows customers to select a new supplier through an efficient mini competition process, where only three of the most appropriate suppliers are invited to provide proposals, reducing bidding time and costs. Everything FM blends critical public sector compliance and social value together with pace and commercialism.

By joining Place Group's supply chain, [Derwent FM](#) has already demonstrated they have the requisite knowhow, experience, business processes and policies, and financial standing to deliver total FM managed services across the UK.

Grahame Sheeran, Head of Business Development at [Derwent FM](#) said: "[Derwent FM](#) is delighted to be an approved supplier on the Everything FM framework, we look forward to working with the team at Everything FM and expanding our public sector client portfolio."

"Quite simply, Everything FM gives control to our clients by allowing customers to obtain the best value for money based upon their requirements and not those that are pre-determined by the framework operator. It removes unnecessary bureaucracy and creates a time efficient route for procurement, which delivers enhanced ROI for all parties." Claire Delaney, Managing Director, Everything FM.
