

Heron Foods renews nationwide window cleaning contract with Penguin FM

4 years ago

Penguin FM has secured a contract renewal with Heron Foods and will continue to deliver window cleaning services to all 300+ UK stores, for another 12 months.

The total FM provider, with offices in London and Leeds, won the contract after tendering in 2020 and this was the first time all sites were supported by a single provider.

Penguin FM Business Development Director Mike Robinson said, "We're delighted to have renewed this national contract with our valued client Heron Foods and we look forward to continuing our successful delivery."
