

New paper looks at Emerging Trends in FM in 2022

3 years ago

OCS's latest thought leadership paper 'Emerging Trends in FM in 2022' from Global Head of Cleaning, Yvonne Taylor and Global Head of Security is available to download now.

As disruptive and often tragic as the impacts of Covid-19 has had across the globe, the effect on FM has been mixed. However, the latest trends reflect some changing priorities and the need to adopt new policies and technology to support them.

If there is a lesson to be learned, it is that the FM industry needs to be prepared to adapt to rapidly evolving situations. By working closely with developers, manufacturers, and partners, FM professionals can not only take advantage of new technology but also adapt existing technologies to meet new challenges.
