

PTSG lands contract at Gleneagles Hotel

4 years ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has been contracted to deliver specialist electrical services at the well-known Gleneagles resort in Perthshire, Scotland.

At Gleneagles, the luxury five-star hotel has 205 bedrooms and 28 suites. There are also ten restaurants and bars designed for family celebrations, romantic dinners or nightcaps. The destination is best known for golf, and with three bucket-list championship courses and an unparalleled golfing experience, it's no coincidence Gleneagles is the only venue in Europe to have hosted both the Ryder and Solheim Cups.

In this contract, engineers from [PTSG Electrical Services Ltd](#) will be delivering repairs to the lightning protection system in place at the resort. These repairs will have been highlighted as necessary during a routine annual test and inspection, which all systems must undergo to ensure optimum performance. PTSG, as the UK's leading provider of lightning protection services, is highly experienced in the design and installation, test and inspection and repair of systems at every kind of building.
