

PTSG praised for ongoing water treatment at Sellafield

3 years ago

[Premier Technical Services Group Ltd \(PTSG\)](#), via constituent company HCS Water Treatment (HCS), continues to work with long-established client Mitie at its Sellafield site.

At the Sellafield nuclear facility in West Cumbria, Mitie manages an integrated portfolio of hard and soft facilities management services, including engineering maintenance, landscaping and environmental works, and cleaning and waste management.

HCS became an integral part of [PTSG Water Treatment Ltd](#) in May 2021 and has worked for Mitie at Sellafield since February 1st 2015. In particular, their Cooling Tower Manager was singled out for the wealth of experience and knowledge he has brought to the team since day one of the contract. This means committing to the cause fully, relocating to the local community, and driving the standards of excellence PTSG strives to attain on a daily basis.

Current contracts for Mitie include Police Scotland, Scottish Parliament and Scottish Fire and Rescue – carrying out risk assessments in all cases.

PTSG Water Treatment Ltd works with clients from a wide range of sectors throughout the UK, providing water hygiene, water treatment and consultancy services in accordance with the current recognised legislative requirements and best industry practice.
