

Bouygues E&S secures RoSPA Gold Award Win

3 years ago

Bouygues E&S is thrilled to announce that Bouygues E&S Solutions has been awarded the RoSPA's President Award as a result of our 10th consecutive GOLD from RoSPA, reflecting our position as a world leader in health and safety practice.

The Royal Society for the Prevention of Accidents (RoSPA) is a charity that has campaigned for the past 100 years to make the world a safer place. Hundreds of thousands of lives have been saved thanks to their safety campaigns, which have included lowering the drink-drive limit and teaching children cycling proficiency.

RoSPA's annual Health and Safety Awards help organisations benchmark safety performance, ensure consistent performance among sites, and demonstrate a continuous commitment to safety. With over 2,000 entrants from across the globe, winning the prestigious Gold Award is a great accolade, made possible only through every employee's dedication to the highest possible health and safety standards. Winning it 10 times in a row is an incredible achievement!

Steve Ford, our Health and Safety Director said: "The health, safety and wellbeing of people remains the top priority within the business and the RoSPA President's (10 consecutive Golds) Award is a fantastic reflection of how our business and our people have continued to build upon this ethos through these unprecedented times. Once again we are immensely proud of our People and our Supply chain in achieving this prestigious award".

Julia Small, RoSPA's Achievements Director, said: "This is a fantastic and well-deserved accomplishment. All our award entrants demonstrate their unwavering commitment and passion for keeping people safe at work. By receiving this recognition Bouygues E&S Solutions join like-minded businesses and organisations worldwide, who represent the very best in their approach to Health and Safety. I would like to add my personal thanks for all the work that it has taken to secure this well-deserved award – congratulations to all those involved, who champion and drive up Health and Safety standards every day. You are a fantastic example to others in your sector."
