

## Dovetail Group Officially Awarded National Cleaning Contract By The Canal And River Trust

4 years ago

After a lot of hard work from the leadership team at Dovetail Group, and a thorough process constructing a pitch to the Canal and River Trust, Dovetail has officially been awarded the national cleaning contract.

A spokesperson said: "This was only possible due to the existing quality of work Dovetail's cleaning team has been providing at the canal offices as sub contractors, establishing an excellent relationship with the business, in addition to the background development of the proposed contract mobilisation and extensive plan.

"This is an exciting new development for the company and particularly the cleaning department at Dovetail Group."

Dovetail Group is a FM company based in the Midlands. Operating nationwide, it specialises in Environmental Services, Facilities Management and Waste Management, priding itself in its ability to deliver all services in-house.
