

PTSG checks in at Blackpool branch of major hotel

3 years ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has completed a specialist access project for one of the UK's leading hotel chains.

Engineers from [PTSG Building Access Specialists Ltd](#) attended the site in Lytham St Anne's, near Blackpool, to carry out the specialist project to the roof of the hotel. They removed an existing lifting access hatch, replacing and modifying the opening to receive a bespoke new hatch.

Lytham St Anne's is a prime location for hoteliers, being an important Victorian seaside town in the north-west of England. It is also just a stone's throw from Blackpool, which is famous for its pleasure beach, old-school amusements and the landmark Blackpool Tower, built in 1894.

PTSG Building Access Specialists Ltd offers a wide range of at-height services to keep buildings structurally sound, clean and safe. They include:

- High-level cleaning (windows, facades, roofs)
- Rope access solutions
- Building fabric maintenance
- Roof and gutter maintenance and repairs.
- Steeplejack services
