

PTSG is 'RoSPA Highly Commended' in the Water Industry Sector Award

3 years ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has received confirmation from the RoSPA Awards Adjudication Panel that it has been awarded the RoSPA Highly Commended in the Water Industry Sector Award.

The award was in recognition of constituent company HCS Water Treatment (which became part of PTSG in May 2021) for its health and safety performance during the period of January 01, 2021, to December 31, 2021.

Organisations receiving a RoSPA Award are recognised as being world-leaders in health and safety practice. In each Industry Sector there will normally be one overall winner. One or more organisations may also be 'highly commended' or 'commended'. These awards are presented in place of the gold/sustained award in recognition of an organisation's higher achievement.

The team from PTSG Water Treatment Ltd will celebrate their achievement in London at ExCeL on May 17, 2022. The daytime award ceremony will be followed by an exciting gala dinner in the evening, during which major awards and trophies will be presented.

Last year, PTSG was awarded its tenth consecutive RoSPA Gold Medal Award for health and safety performance during the period of 1st January 2020 to 31st December 2020.
