

PTSG to work with joint council in the West Midlands

3 years ago

Following a competitive tender process, [Premier Technical Services Group Ltd \(PTSG\)](#) has been selected to deliver specialist water treatment services for Wychavon & Malvern Hills District Council.

Wychavon District Council and Malvern Hills District Council share a Chief Executive Director and a joint management team, whilst retaining their own political structures and distinct identities.

Located in south Worcestershire, Wychavon District boasts a beautiful natural environment and a rich heritage. It is considered one of the best rural places to live in the West Midlands and is amongst the top 30 in the country.

The Malvern Hills are in the English counties of Worcestershire, Herefordshire and a small area of northern Gloucestershire, dominating the surrounding countryside and the towns and villages of the district of Malvern. Malvern Hills District Council provide services for over 75,000 residents in the district.

Engineers from [PTSG Water Treatment Ltd](#) will carry out Legionella risk assessments, temperature monitoring, and inspections and shower cleans for assets within the council districts.

Water hygiene encompasses the implementation and monitoring of written control schemes after a risk assessment as well as the upgrade or improvement of water system. PTSG assists not only in providing tried and tested methods of monitoring, cleaning, disinfection and refurbishment of water systems, but also in designing innovative engineered control measures to comply with relevant legal requirements.
