

Site operating procedures and the use of face coverings in construction

3 years ago

In line with the Government's [Living with COVID-19](#) plan, the Working Safely During Coronavirus guidance, together with the health and safety requirement for employers to explicitly consider COVID-19 in their risk assessments, has been withdrawn from 1 April.

As a result, the CLC Site Operating Procedures and the Use of Face Coverings in Construction will remain available as reference documents only.

You can download the reference documents here:
