

Arcus FM secures internationally recognised RoSPA Gold Award

3 years ago

Technology led, people driven Facilities Management company Arcus FM has achieved the internationally recognised RoSPA Gold Award for demonstrating exemplary health and safety standards.

Arcus FM received the RoSPA Gold Award for continuously working hard to ensure all their colleagues get home safely at the end of each working day, and being able to demonstrate exceptional standards and processes in all aspects of health and safety.

Established in 1956, the RoSPA Health and Safety Awards are recognised as the most prestigious scheme in the world for the Health and Safety. The achievement of this award for Arcus represents a major milestone in their HSQE (Health, Safety, Quality and Environment) strategy; where the business is aiming to not only outstrip peers in the facilities management sector, but ensure that there are strong, objective benchmarks in place to measure against wider industry and be a real leader in this most vital of areas.

These awards are based on a business's individual health and safety performance and are required to provide evidence of a robust and successful health and safety management system – with criteria assessed against key performance questions and supported by a portfolio of relevant documentation.

Monima Harrison, HSQE Director for Arcus FM, comments, "Health, safety, and wellbeing is the number one priority for Arcus and we are delighted to have won RoSPA Gold Award. This award is a testament to all the excellent work our colleagues do on behalf of all our customers, high standards demonstrated and their health and safety performance across all contracts. I want this award to inspire continual focus and improvement in Arcus' health and safety performance, with a focus on the theme of personal responsibility, accountability, engagement, ownership and leadership when it comes to Health, Safety,

Quality, Environment and Sustainability.

“This award is thanks to the continued focus and dedication of our colleagues, and I’d like to thank them all for their contribution to our success.”

Julia Small, RoSPA’s Achievements Director, said: “This is a fantastic and well-deserved accomplishment. All our award entrants demonstrate their unwavering commitment and passion for keeping people safe at work. By receiving this recognition Arcus FM joins like-minded businesses and organisations worldwide, who represent the very best in their approach to Health and Safety. I would like to add my personal thanks for all the work that it has taken to secure this well-deserved award – congratulations to all those involved, who champion and drive up Health and Safety standards every day. You are a fantastic example to others in your sector.”
