

Catherine Horne appointed as Managing Director for ISS Government Segment

3 years ago

ISS UK & Ireland is delighted to announce that Catherine Horne has been appointed as the Managing Director for ISS's expanding Government segment in the UK.

Catherine has been a long standing and successful member of the ISS Healthcare team in both senior operations and business development roles for 18 years. In total, Horne has over 30 years' experience in FM, working with private and public sector customers.

The UK Government segment is an exciting space and Catherine will look to build upon the recent extension and expansion of [ISS's relationship with the Government Property Agency](#) and the departments/agencies they represent.

Catherine's professionalism, customer centricity and business growth credentials are an excellent match for continued delivery of exceptional value to ISS' Government customers.

Martin Burholt, Chief Operating Officer at ISS UK & Ireland, said: "We are delighted that Catherine has accepted the position as Managing Director for ISS' Government segment. She brings key expertise that will support customers in this segment. With a passion for both business development and operations, Catherine will no doubt be a huge success leading this business."

Catherine Horne, Managing Director – ISS Government, said: "I am extremely excited to be taking the reins on our incredible UK Government business. The fast pace of change makes it an exciting time in the public sector, and I'm looking forward to supporting our customers with their post-pandemic return to work strategies."
