

PTSG is number one choice in Seven Sisters

3 years ago

[Premier Technical Services Group Ltd \(PTSG\)](#) is to provide specialist electrical services at a new residential development in the Seven Sisters district of North London.

Planning permission has been gained for a large-scale development in this once mainly commercial area. Lawrence Road has seen a complete shift from a commercial to residential space, bringing much-needed homes to Seven Sisters.

Sisters is a multi-cultural area strongly influenced by its location on key road and underground rail routes. Immediately above the tube station is an early-Edwardian department store building, formerly occupied by Wards Furnishing Stores, which traded until 1972. Part of the building, known locally as Wards Corner, is thriving as an indoor market with a strong Latin American flavour.

Engineers from [PTSG Electrical Services Ltd](#) have been contracted to install a brand-new lightning protection system at the development. This will ensure protection of the building and all users in the event of an electrical storm

The Essex office of PTSG Electrical Services Ltd (trading as JW Gray) is thought to be the oldest trading provider of lightning protection services in the UK, possibly even Europe. It was established in 1835.
