

Aaron Access and Aaron FM deliver new access road and roller shutter door at Kingmoor Business Park

3 years ago

Aaron Access and Aaron FM, two specialist companies forming part of Aaron Engineering Group, have worked together to deliver a new access road and install a roller shutter door at a business unit at Kingmoor Park industrial estate in Carlisle.

The works involved engineers from Aaron Access and Aaron FM providing demolition works, construction of a new access road and construction and installation of a new roller shutter sectional door for the unit.

The project commenced on site in February 2022 and was completed in June. Works were completed without any accidents or health & safety incidents.

Discussing the project, Aaron FM Project Manager Adrian Percival said: "The work at Kingmoor Park has been a great collaboration between Aaron Access and Aaron FM, with our engineers working together to construct a new access road and sectional door to provide safe and secure access to the unit.

"This is a high-profile project for us that showcases both Aaron Access and Aaron FM's capabilities in delivering quality controlled access solutions and property services to help our clients prosper."

Kingmoor Park is home to over 150 businesses, employing some 2,500 people, including DPD, UPS, Edinburgh Woollen Mill, Story Homes, and Thomas Graham.

Located adjacent to J44 of the M6 Kingmoor Park is also Cumbria's only Enterprise Zone, enabling tenants to maximise opportunities in the area and making the park a great place to do business.

Kingmoor Park is owned and managed by Kingmoor Park Properties Ltd., a company dedicated to the ongoing development of the estate, its land, buildings, and tenants in Carlisle.
