

Access increased with PTSG at Grafton Gate East

3 years ago

Building Access Specialists from [Premier Technical Services Group Ltd \(PTSG\)](#) are delivering specialist at-height services at a major office building in Milton Keynes.

401 Grafton Gate is a high-quality office building located in a prime position on Midsummer Boulevard in Central Milton Keynes. The building offers attractive modern office space that benefits from excellent natural light and a recent common parts refurbishment creating an impressive first impression. The property is based over four floors with extensive on site car parking and offers high specification 'Best in Class' floor plates.

Milton Keynes is one of the fastest growing urban areas in the UK. Engineers from [PTSG Building Access Specialists Ltd](#) are delivering glass replacement services at 401 Grafton Gate. Its IRATA-trained engineers are rope access specialists, skilled in delivering a number of services at height including – but not limited to – window cleaning, cladding and masonry repairs, roof repairs, signage installation and removal and painting and decoration.
