

City FM secures place on CCS Framework RM6232

4 years ago

City FM has been named as a supplier on Crown Commercial Service's [Facilities Management and Workplace Services Framework, RM6232](#), for the supply of hard facilities management services.

It is undertaking two lots offered by the framework:

- Hard Facilities Management Lot 2b
- Hard Facilities Management Lot 2c

Crown Commercial Service (CCS) supports the public sector to achieve maximum commercial value when procuring common goods and services. In 2020/21, CCS helped the public sector to achieve commercial benefits equal to £2.04bn – supporting world-class public services that offer best value for taxpayers. The Facilities Management and Workplace Services Framework gives City access to bid on contracts across all government departments and public sector organisations over the next four years.

City FM is a global facilities management company delivering tailored customer FM strategies built on data and trusted partnerships. With more than 35 years of experience working with some of Britain's biggest private sector companies, City will provide data-driven asset management, energy management, and FM service delivery to public sector organisations.

Campbell Murdoch, Managing Director of City FM, said: "We are delighted to be awarded a place on the CCS framework as we continue to grow our footprint in the public sector and build strong relationships with all stakeholders. We look forward to bring our experience to the public sector to add value through collaboration and partnerships."
