Welcome to InTheNews – covering all the FM news you may have missed over the last week:

A new [Progress Report](#) by the independent Climate Change Committee (CCC) finds major failures in delivery programmes towards the achievement of the UK's climate goals.

In a landmark 600-page assessment, the CCC has revamped its framework for monitoring the UK's climate progress, focusing on the changes needed on the ground to achieve Net Zero. Across the economy, the CCC has developed detailed new progress indicators to assess the risks of Net Zero delivery.

In other reports, new data from the CIPD shows that more than three-quarters of organisations have embraced hybrid working through a mix of formal and informal arrangements.

However, employers are split over whether the move to new ways of working will last or if organisations will go back to pre-pandemic ways of working. In response, the CIPD is urging employers to seize the moment to develop and embed new ways of working that will ultimately benefit organisations and their people.

While the research indicates that hybrid working is working well in many organisations, some challenges or resistance are being felt. You can find out why on news.fmbusinessdaily.com

[Wates Facilities Management \(FM\)](#) is experiencing a period of considerable growth following its appointment to continue providing both planned and reactive building maintenance across four nationwide contracts.

These include [Mercedes AMG High Performance Powertrains \(HPP\)](#), [Smart DCC](#), Think Money Group and West Midlands Police.

Building on its established relationships with these companies, some of which span more than eight years, Wates will undertake a full range of FM services across 100+ sites on contracts ranging from one to five years.

Elior UK has launched its Social Value Charter to build on the activities already embedded in its business and to activate a co-ordinated approach to taking account of the economic, social and environmental effects of its actions and ensure that all colleagues and those who work with Elior UK are making a conscious effort to create a positive impact wherever possible.

The Charter summarises Elior UK's on-going approach to social value matters that are relevant to its business operations, policies and supply chain. Key performance indicators are measured alongside Elior UK's corporate responsibility and sustainability strategy; its 'Positive Footprint Plan' and carbon reduction goals for 2025.
