

INTEGRAL CRADLES TAKES PART IN CHARITY DRAGONBOAT FESTIVAL

3 years ago

[Integral Cradles Ltd](#), the provider of permanent façade access solutions across the UK, is proud to have participated in the Canary Wharf Contractors' Fund (CWCF) Dragonboat Festival 2022.

The event took place on Friday 15th July at the Docklands Watersports and Sailing Club in East London (E14). As the photos show, it was great fun for all involved under beautiful blue skies, while raising funds for a number of hugely worthwhile causes.

CWCF was established 20 years ago with the objective of raising funds on behalf of local and national causes. To date, the fund has donated over £3,000,000 to causes including Building Lives, Demelza Children's Hospice, London Air Ambulance, Rehab UK, St Joseph's Hospice, Providence Row, the Royal Society for the Prevention of Accidents, Great Ormond Street, Royal London Hospital, Chickenshed, Teenage Cancer Trust, The Lighthouse Club, 21st Century Legacy and Spread-A-Smile – as well as supporting individuals with specific needs.

Integral Cradles took part in the Dragonboat Festival alongside sister company GIND UK, which delivers ongoing warranted maintenance of the façade access systems designed and installed by the team at Integral Cradles.
