

Emirates NBD banks on PTSG's expertise

3 years ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has been delivering a range of specialist building access services at Emirates NBD in London's Knightsbridge.

Emirates NBD, a leading banking group in the Middle East, was formed in October 2007 as a result of the merger of Emirates Bank International (EBI) and the National Bank of Dubai (NBD), combining the second and fourth largest banks in the United Arab Emirates (UAE) to form one of the largest institutions in the GCC region.

There are over 150 branches in the UAE, and international branches in the United Kingdom, the Kingdom of Saudi Arabia, Singapore and India. Established in 1986, the London Branch is centrally located in Knightsbridge, offering clients private banking, investment management, real estate advisory and wholesale banking services.

Engineers from [PTSG Building Access Specialists Ltd](#) have been carrying out glazing works and leak detection on site in Knightsbridge. The works include internal remedial works and repairs. The engineers gained access to the affected areas of the building using a mixture of rope access and static positions.
