

Jaguar retain St Botolph Building for a further 3 years

4 years ago

Following a recent re-tender process for CBRE, on behalf of Deka Properties, [Jaguar](#) has retained the M&E contract at the St Botolph Building for a further 3-year period.

The building is located in the prestigious EC3 insurance district and provides over 500,000 sq ft of office space for City occupiers.

Danny McGarvey is the nominated Account Manager for the contract and has a wealth of site knowledge as he was previously Site Manager for the building from 2018-2020.

Danny commented: "CBRE shares Jaguar's values on sustainability. Together, we will be implementing strategies to reduce our impact on the environment. Jaguar is driving forward with energy management, innovation, and sustainable projects. We are all moving in the same direction to reduce energy consumption in an environment where a lot of energy is lost through inefficiency and lack of awareness.

We are delighted to be working with CBRE and Deka and look forward to collaborating and finding ways to continue reducing our energy consumption."
