

Parker Technical Services appointed to Crown Commercial Services framework

3 years ago

[EJ Parker Technical Services](#) has been named as a supplier on the [Crown Commercial Service's \(CCS\)](#) Facilities Management and Workplace Services Framework.

The framework gives all government departments and public sector organisations access to facilities management and workplace services across the UK.

The business has secured a position on Lots 2a and 2b for the provision of Hard FM services including mechanical, electrical, ventilation and power systems maintenance in addition to other core services around compliance and sustainability.

Commenting on the appointment, Robert Molloy, Managing Director, Parker Technical Services, Scotland, said: "Being appointed to this high profile framework is testament to the expertise and broad skill base of the team at Parker. We're looking forward to working with the clients across the public sector to help them achieve sustainability targets and deliver social and economic benefits to the communities they operate in."

CCS supports the public sector to achieve maximum commercial value when procuring common goods and services. In 2020/21, CCS helped the public sector to achieve commercial benefits equal to £2.8 billion – supporting world-class public services that offer best value for taxpayers.

Parker Technical Services is part of the [Edwin James Group](#) a national asset engineering, technical and process services group that operates throughout the UK. The group offers a complete range of services that are delivered by a highly-skilled workforce.
