

Platinum Facilities wins at 160 Old Street

3 years ago

Platinum Facilities, the technology led hard FM service provider, has announced that it has been awarded a three-year contract to provide engineering maintenance services at 160 Old Street, a 160,000 sqft commercial building in London.

The former Royal Mail building was transformed into a contemporary, flexible environment in 2018, incorporating premium office spaces, collaborative working areas, roof terraces and four retail units.

Platinum Facilities will be utilising its in-house expertise to support the already high energy efficiency and green credentials of 160 Old Street, whilst ensuring that ESG governance is at the centre of the service model.

Peter Brooks, Business Development Director Platinum Facilities commented: "This is a fantastic opportunity for us to showcase our service delivery offer, providing an enhanced technology and energy focused maintenance contract. We look forward to working in partnership with MAPP to deliver the highest standards."
