

PTSG to protect another London development

4 years ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has been awarded a contract to deliver specialist electrical services at a new mixed-use scheme in North London.

4-9 Gladstone Parade is a residential-led mixed-use proposed development in Cricklewood, London NW2.

A three-storey retail parade with residential apartments on upper floors was proposed for the 0.18 hectares (0.43 acres) site.

The scheme will comprise 54 residential units and 21 car parking spaces with a total residential net sales area of 3,578 sq m (40,448 sq ft) and four commercial units extending to 420 sq m (4,519 sq ft) gross internal area at ground floor level.

The development is situated approximately 950 metres north-west of Cricklewood station, which provides Thameslink services into London St Pancras and connects with the London Underground (Jubilee Line) at West Hampstead. It is also approximately 500 metres south of the new Brent Cross West Station, which is due to open in 2022.

Engineers from [PTSG Electrical Services Ltd](#) will install a brand-new lightning protection system at the development, providing protection for both buildings and users alike in the event of an electrical storm.

PTSG is the UK's leading provider of lightning protection services. This includes bespoke and standard system installation, test and inspection and maintenance. It also encompasses surge protection and specialist earthing systems.
