

Pareto partners with Totaljobs

3 years ago

Totaljobs has appointed Pareto FM to provide hard services across offices in London & Belfast with project support provided to Birmingham, Havant, Cardiff, Leeds, Manchester, Nottingham and Glasgow.

The contract will see Pareto FM deliver all associated mechanical, electrical and fabric related planned and reactive maintenance.

Totaljobs is one of UK's leading job boards, attracting 12 million visits and 3 million applications from qualified jobseekers every month. 130,000 new candidates register with us each month who have an average of 170,000 jobs a month to choose from, posted by thousands of employers including Amazon, Sky, Virgin Media, DHL amongst many others. We were formed in 1999 and we are part of Totaljobs Group Ltd, the largest and fastest growing UK job board company in the UK. Our head office is in London, and we also have offices in Birmingham, Cardiff, Leeds, Manchester, Nottingham and Glasgow. In turn, Totaljobs Group Ltd is a significant division of StepStone Group, one of the largest job board companies in the world and a subsidiary of Axel Springer Digital Classifieds.

Phil McDowell, UK Facilities Manager for Totaljobs commented: "We were looking for a provider that was agile enough to be able to meet our specific requirements of our growing business. We needed a service provider that could deliver great communication and ultimately work with us to deliver a high level of service. In Pareto we found a partner that was the right size to support our business and ensure we received the service levels we required."

Andrew Hulbert, Pareto FM MD added: "We've previously had experience working with Totaljobs as a tenant in one of our landlord portfolios. We built up a great relationship with them and were delighted to then be given the opportunity to support them across their wider network. We count ourselves lucky to be partnering with one of the most successful recruitment companies in the sector; a service that we also use

to recruit team members. It's been a great start to the relationship, and we look forward to seeing what we can build together."

Pareto FM

Pareto FM is a service focused, customer centric, facilities management company based in the UK. We operate with an entirely flexible model that allows us to build our service solution around each organisation we partner with. Our high client engagement model ensures engaged and proactive account management, and our teams are formed of professionals qualified to the highest levels within FM. As one of the top 50 fastest growing companies in the UK, we apply intellect and intuition to our service offering. We embrace technology and innovation at every opportunity, to deliver exceptional service to those who choose to partner with us.
