

PTSG delivers refurbishment works at stunning London offices

3 years ago

[Premier Technical Services Group \(PTSG\)](#) has been delivering specialist restoration works to a building in London which is reimagined and reinvigorated by a team of acclaimed architects.

The stunning Hallmark Building in Leadenhall Street, EC3, has been carefully restored in a way that preserves its classical features. It now provides Grade A office space in a prime London location.

Our team of specialists from PTSG Building Access Specialists Ltd has been instructed to assist with major window refurbishment works and to seal and insulate various façade elements.

PTSG [Building Access Specialists Ltd](#) is one of PTSG's five independent business divisions. Over the last two years, it has grown to offer a wider, more comprehensive set of services including:

- High-level cleaning (windows, facades, roofs)
- Rope access solutions
- Building fabric maintenance
- Roof and gutter maintenance and repairs.
- Steeplejack services
