

Tilbury Douglas achieves recertification of ISO 27001 Information Security Certification

3 years ago

Tilbury Douglas, a leading UK building, infrastructure, engineering and fit-out business, has successfully achieved the recertification of the ISO 27001 Information Security certificate.

ISO 27001 is an international standard which demonstrates an organisation's compliance to information security both electronic and physical.

Roxann Dawson, Director of Business Assurance at Tilbury Douglas, said: "As a standalone major contractor, we will continue to invest in our IT systems and software to enable us to carry on efficiently managing data securely. Our successful recertification of ISO 27001 further demonstrates our capability to do so effectively."
