

Tilbury Douglas announces Regional Building Appointments

4 years ago

Tilbury Douglas, a leading UK building, infrastructure, engineering and fit-out business, has promoted Dave Tighe as Regional Director for the Midlands and Chris Edmonds as Regional Operations Director for South Wales.

With nearly 40 years of construction industry experience, Dave has been with Tilbury Douglas for eight years, most recently as Regional Operations Director for the Midlands. He has extensive knowledge of working across all disciplines, as well as experience of dealing with customers and the supply chain.

To support Dave in his new wider role, Chris Loach will be focusing on the East Midlands building business. This is the first step in the planned growth of the building division within the East and West Midlands regions.

Having started his career at Tilbury Douglas in 2006, Chris Edmonds has progressed to senior roles, most recently leading the £130m refurbishment of Prince Charles Hospital in Merthyr Tydfil.

Simon Butler, Managing Director Building Central at Tilbury Douglas, said: "As a standalone major contractor, we have a strong track record in delivering both regionally and nationally for our customers across a wide variety of sectors. I am pleased to announce these key regional appointments, as these will further help with our commitment to continue to go above and beyond for our customers."
