

PTSG brings project at Aircraft Factory to ground

4 years ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has completed a specialist electrical services project at the Aircraft Factory in West London.

The site of the Alliance Aeroplane Company, The Aircraft Factory is a converted factory structure with full ceiling heights in a campus office environment with on-site coffee bar and gardens. The Aircraft Factory is comprised of three inter-connecting blocks up to five storeys in height on a site totalling approximately 1.30 acres (0.52 hectares).

Engineers from [PTSG Electrical Services Ltd](#) have completed repairs the lightning protection system in place at the facility to ensure it remains fully operational to protect the structure and all users in the event of an electrical storm. An annual test and inspection is mandatory on all such systems and highlights any remedial work that is need.

PTSG is the UK's leading provider of lightning protection services. It delivers brand-new systems, testing and inspection, repair and upgrade services to lightning and surge protection systems for clients in all industry sectors.
