

PTSG delivers specialist services at village hall

3 years ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has completed a specialist electrical services project at one of the most substantial buildings in the Lancashire village of Bilsborrow.

Bilsborrow Hall is an imposing residence on the northern boundary of Preston, used as a Judges Lodging. The village of Bilsborrow is situated on the Lancaster Canal, in the Wyre district. It has a population of around 700.

Engineers from [PTSG Electrical Services Ltd](#) recently completed a test and inspection of the lightning protection system in place at Bilsborrow Village Hall. Such tests are required on an annual basis to ensure the equipment remains fully operations and able to protect the structure and all users in the event of a lightning storm.

PTSG is the UK's leading provider of lightning protection services. Its engineers are at work throughout the nation, delivering test and inspection, repairs, upgrades and brand-new bespoke or off-the-shelf lightning and surge protection systems. PTSG serves clients in all industry sectors.
