

PTSG envisions safe solutions at new gigafactory

3 years ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has won a contract to deliver specialist Access & Safety equipment at a site in Sunderland where a £450m car battery gigafactory is being built.

Envision AESC is creating a 50-acre International Advanced Manufacturing Park which will form part of a £1bn partnership with Nissan UK and Sunderland City Council to create an electric vehicle hub to deliver the next generation of electric vehicle production.

The gigafactory represents an initial 9GWh plant with potential future-phase investment by Envision AESC of £1.8bn. This will generate up to 25GWh and create 4,500 new high-value green jobs in the region by 2030, with potential on site for up to 35GWh. This commitment will power Nissan's new vehicles in the first phase and support the continued localisation of vehicle parts and components with advanced technology.

[PTSG Access & Safety Ltd](#) will be on site from December 2022 to supply and install a bespoke fixed guardrail solution to the perimeter of this substantial new building.

PTSG is trusted by over 20,000 customers to deliver products and services that protect people, property and places, ensuring they remain safe and compliant with the latest regulations.
