

## PTSG brought in to strengthen Worcester rugby club

3 years ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has completed a specialist electrical services contract for Worcester Rugby Football Club.

Worcester Rugby Football Club is a rugby union club founded by the Rev. Francis John Eld. Its first game was against the Artillery on November 8th 1871.

The club's first team are members of the RFU Championship, after being relegated from the Aviva Premiership, and use the nickname Warriors. They also compete in the British and Irish Cup and Aviva A League. They previously competed in the Anglo-Welsh Cup and the European Rugby Cup competitions. The club's kit is made by sports manufacturer Cotton Traders and they are sponsored by Worcester Bosch and Fragrance Mad. Their home stadium is the Sixways Stadium, and the team colours are blue and gold. Their nearest premiership rivals are Gloucester rugby club.

Engineers from [PTSG Electrical Services Ltd](#) recently completed a test and inspection of the lightning protection system in place at Worcester Rugby Football Club. Such tests are required on an annual basis to ensure the equipment remains fully operations and able to protect the structure and all users in the event of a lightning storm.

PTSG is the UK's leading provider of lightning protection services. Its engineers are at work throughout the nation, delivering test and inspection, repairs, upgrades and brand-new bespoke or off-the-shelf lightning and surge protection systems. PTSG serves clients in all industry sectors.
