

PTSG works at new energy from waste facility

3 years ago

[Premier Technical Services Group Ltd \(PTSG\)](#) is providing specialist electrical services at an energy from waste facility currently under construction close to Northwich, in Cheshire.

Lostock EFW is a new £480m Energy from Waste facility with an operational capacity forecast to be 600,000 tonnes per annum. The project is owned by joint venture company Lostock Sustainable Energy Plant Ltd – an arrangement between Copenhagen Infrastructure Partners (60%) and FCC Environment (40%) with the original developer Tata Steel ‘remaining a participant’.

Engineers from [PTSG Electrical Services Ltd](#) have delivered site-wide protective earthing on this project, which has been ongoing since March 2022 and is likely to be ongoing until late 2023 or early 2024.

PTSG is the UK’s leading provider of lightning and surge protection services, whilst also delivering specialist earthing solutions to clients in all industry sectors. PTSG Electrical Services Ltd is one of the Group’s five independent business divisions; the other four are: PTSG Access & Safety Ltd, PTSG Building Access Specialists Ltd, PTSG Fire Solutions and PTSG Water Treatment Ltd.
