

Livv Launches with a Mission to Transform the Workplace Experience

2 years ago

Livv, a boutique workplace experience company, has officially launched with a mission to help challenger organisations create and maintain inspiring workplaces.

The company is founded on the belief that a workplace should embody a company's culture, beliefs, and aspirations and should operate seamlessly and exude confidence and individuality.

At Livv, the team of dedicated specialists understand the importance of the workplace experience, both for a company's own people and its customers.

The company starts by gaining an understanding of an organisation's culture, beliefs, and aspirations and then adds their own expertise and flair to create a seamless and inspiring workplace experience.

"We believe that every detail matters in the workplace experience, from first impressions to everything in-between," said Matt Bowers, Managing Director of Livv. "That's why we take care of the details so that our clients can focus on what they do best – their product and service."

Livv is proactive, accessible, and skilled, and is focused on realising its clients' visions. The company takes care of the details that make all the difference, ensuring that the workplace operates seamlessly, exudes confidence, and inspires everyone who steps through the door.

"We are thrilled to launch Livv and bring our vision for simply inspiring workplaces to life," said Bowers. "We believe that our focus on culture, beliefs, and aspirations sets us apart and will be the key to our success."
