

## PTSG gets down to business in Watford

2 years ago

Premier Technical Services Group Ltd (PTSG) has been contracted to deliver specialist electrical services at the redeveloped Watford Business Park.

The £20m project includes the design of 7,100 square metres of commercial premises and parking, along with a new site into the road. Five warehouses will be built, alongside four smaller buildings, which will be in modular form. A cafe will also be created, with the council looking at enticing businesses from sectors like film, TV, life sciences, manufacturing and more, although the council says existing occupiers will be retained.

The current Watford Business Park car park in Greenhill Crescent will be built over with the new scheme providing a total of 111 parking spaces.

Engineers from [PTSG Electrical Services Ltd](#) will deliver a lightning protection system to protect the new estate and all users during electrical storms.

PTSG is the UK's leading provider of lightning and surge protection services, whilst also delivering specialist earthing solutions to clients in all industry sectors. PTSG Electrical Services Ltd is one of the Group's five independent business divisions; the other four are: PTSG Access & Safety Ltd, PTSG Building Access Specialists Ltd, PTSG Fire Solutions and PTSG Water Treatment Ltd.
