

PTSG visits Legoland

2 years ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has completed a specialist electrical services project at Legoland, Windsor – a park themed around the Lego brand.

The park opened on 17th March 1996 and is currently operated by Merlin Entertainments. Attractions consist of a mixture of Lego-themed rides, models, and building workshops targeted at children between three and twelve.

Legoland Windsor regularly draws more attendees than the original Legoland Billund Resort in Denmark; in 2011, it became the tenth-most popular theme park in Europe, a position it has held every year since. Legoland Windsor typically opens from March to January, with closures on some days.

The park is split into 12 themed lands, incorporating various attractions, restaurants and shops: The Beginning, Duplo Valley, Knight's Kingdom, Lego City, Miniland, Lego Ninjago World, Pirate Shores, Heartlake City, Kingdom of the Pharaohs, Land of the Vikings, Imagination, Lego Mythica: World of Mythical Creatures.

In this contract, engineers from [PTSG Electrical Services Ltd](#) completed a test and inspection of the [lightning protection system](#) in place at the theme park, in compliance with British standards. If any areas are found to need maintenance in such inspections, PTSG's engineers are fully trained and experienced to carry out the necessary work to ensure the system remains fully operational.
