

Construction Line Gold Standard re-accreditation for Foster

3 years ago

Constructionline
Gold Member

[Foster Contracting Ltd](#), the road and runway maintenance specialist, has announced its re-accreditation to Construction Line Gold standard.

The company sets high standards in its business and achieving this is an affirmation of that goal. Constructionline Gold membership conducts a number of further validation checks, using an enhanced prequalification questionnaire that goes beyond PAS 91. It assesses a company's credentials for environmental management, quality management, equal opportunities, modern slavery act adherence and anti-bribery and corruption policies. Some of these policies form part of the Cabinet Office Selection Questionnaire (SQ), which the public sector is expected to comply with.
