

PTSG to work at Oxford Canalside development

2 years ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has been contracted to deliver specialist electrical services at a major new mixed-use development in North Oxford.

In Spring 2021, Hill was selected as the developer for the residential scheme at Oxford North – a significant urban extension to the north of the city that will provide a vibrant new mixed-use quarter with a new research and development life science campus, as well as a residential development at Canalside overlooking the river and Wolvercote.

In this contract, engineers from [PTSG Electrical Services Ltd](#) will install a bespoke lightning protection system that will protect the buildings and users alike in the event of an electrical storm.

PTSG is the UK's leading provider of lightning protection services. Its engineers are at work throughout the nation, delivering test and inspection, repairs, upgrades and brand-new bespoke or off-the-shelf lightning and surge protection systems. PTSG serves clients in all industry sectors.
