

PTSG works at affording housing development in Brighton

2 years ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has been contracted to deliver specialist electrical services at a bold new development in Brighton.

A developer offered to pay £3.6 million towards the cost of providing “affordable” housing in Brighton and Hove after being rebuffed by dozens of housing associations. The sum will be paid to Brighton and Hove City Council instead of including 18 affordable homes for rent at the old KAP Peugeot car dealership site in the city’s Newtown Road.

The development will comprise three blocks of flats, up to 11 storeys high, containing 148 flats in total in Newtown Road as part of a £60 million scheme.

Engineers from [PTSG Electrical Services Ltd](#) will deliver a brand-new lightning protection system at the new development, safeguarding structures and residents in the event of an electrical storm.

PTSG is the UK’s leading provider of lightning and surge protection services and specialist earthing solutions for customers in all industry sectors. With 47 centres of operations throughout the UK, PTSG’s teams can be mobilised to any site at a moment’s notice.
