

TENNANT UK DONATES TOYS AND CRAFTS FOR CHILDREN'S HOSPICE

2 years ago

Tennant UK, the supplier of floor cleaning equipment, has chosen to support Derian House Children's Hospice as its 'local' charity for the company's North West based office in Bolton following a vote from all staff.

In May Tennant UK made a donation of toys and arts and craft supplies for the children being cared for.

Tennant UK Marketing Manager Daniel Cross said "unfortunately, Derian House could not accept donations of Easter Eggs due to a lot of their children being unable to consume them due to their dietary requirements and so the charity asked if instead we could do an Easter themed craft collection."

The team at Tennant UK's Bolton office donated an impressive selection of activity books, paints, crayons, colouring sets, soft toys and craft supplies.

Ellie Smith, Community Fundraiser at Derian House, said: Thank you so much to everyone at Tennant UK that has contributed to this collection. We rely on the generosity of our friends within the community - like everyone at Tennant UK and we are truly thankful and appreciative of their support.

Daniel continues "we look forward to continuing to support Derian House throughout the year and our team are very passionate about our involvement with a local charity doing such great work."
