

PTSG scales the heights for real estate specialist

2 years ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has secured a new contract to provide specialist cleaning services for a real estate knowledge provider, with offices in Leeds and Manchester.

The company offers a range of services including (but not limited to) asset management, building surveys, investment, and office leasing.

In this project, engineers from [PTSG Building Access Specialists Ltd](#) will deliver specialist maintenance services to maintain the structural integrity of the roof of the customer's office building.

PTSG's operatives are experienced in delivering maintenance and repairs to tiled roofs, whether flat or sloping, and can carry out a wide variety of general works.

Drone surveys help clients to plan ahead for maintenance work. Thanks to the great level of detail provided by the drone footage, they can see the exact condition of their buildings and any work PTSG's engineers can deliver that will ensure they remain in first-class condition.
