

PTSG to work at new Essex development

2 years ago

Premier Technical Services Group Ltd (PTSG) has been contracted to provide specialist electrical services at a new residential development in Bishop's Stortford.

Earthworks began on the Stortford Fields development in Bishop's Stortford North in late summer 2022. There will be a total of 2,200 new homes, with a further 329 within St Michael's Hurst. East Herts Council has now approved 479 homes on St Michael's Hurst, taking the overall total to 2,679. Delivery of the homes is underway and the build out programme is expected to continue until 2033.

Bishop's Stortford North comprises three neighbourhoods, which will include:

- The Western Neighbourhood of Stortford Fields
- The Eastern Neighbourhood of Stortford Fields
- St Michael's Hurst

Engineers from PTSG Electrical Services Ltd will deliver a brand-new lighting protection system at the new waste water treatment facility in Cambridge. This will provide vital protection for the structure and users in the event of an electrical storm.

PTSG is the UK's leading provider of lightning protection services. It delivers brand-new systems, testing and inspection, repair and upgrade services to lightning and surge protection systems for clients in all industry sectors.
