

## PTSG to work at stunning London Quayside

2 years ago

[Premier Technical Services Group Ltd \(PTSG\)](#) is to deliver specialist Access & Safety services at a new mixed-use development in south-west London.

Comprising 110 residential units that will offer spectacular views of the Thames and London's skyline, Quayside Lodge is a stunning, 10-storey mixed-use building, with a single storey basement where secure cycle parking and 51 car parking spaces will be situated.

In this contract, engineers from [PTSG Access & Safety Ltd](#) will deliver Mansafe systems at the new development. A Mansafe System is a horizontal Safety Line System designed to keep individuals safe when working at height. The word mansafe is often used within the industry to describe various forms of fall protection systems, with the most common system being the Safety Line system.

PTSG Access & Safety Ltd is the Group's original business division and one of the industry's leading suppliers of specialist safety equipment and services to the construction and FM sectors.
