

## Sodexo Energy and Resources announces leadership team appointment

2 years ago

Sodexo Energy and Resources has announced the appointment of Tony Brady to its leadership team.

He has global experience across the oil and gas and energy transition supply chain and joins from ASCO Group. His career has seen him set up and run offshore supply bases in Rio De Janeiro and on the Amazon River in the City of Belem, as well as running an offshore supply base for bp at Galeota Point in Trinidad.

Mr Brady will join the senior leadership team and his role will support the delivery of the company's regional strategy to provide value added solutions for its current and existing clients.

Managing director Ed Morrow said: "We are delighted to welcome Tony to our team. We have some exciting plans in development which will help our existing and future clients in their challenge to create a positive lived experience for their onshore and their offshore workforce. Tony's experience in the sector is invaluable as it is an industry like no other, delivering services in often extreme and challenging conditions with the health, safety and wellbeing of all a key priority for us and for our clients."

The division delivers catering, hospitality, welfare, facilities management services, property management and refurbishments services to over 40 onshore energy and offshore & marine client sites throughout the UK. It is committed to supporting the wellbeing and meeting the evolving needs of employees working in often isolated and complex environments such as an offshore platform in the North Sea or an onshore LNG plant.
