

SPIE UK issues 2022 Corporate Social Responsibility Report

3 years ago

SPIE UK is pleased to share its latest Corporate Social Responsibility (CSR) Annual report that outlines its achievements and focus areas during 2022.

SPIE UK has a responsibility to not only operate as a successful and profitable business but also to positively impact the communities in which it operates and the environment we all share.

This report provides an overview of its efforts to fulfill that responsibility. Our focus areas included reducing its carbon footprint, promoting diversity and inclusion, and supporting local communities.

SPIE UK CSR Manager Clemence O'Connor, said: "At SPIE, we are committed to conducting our operations transparently, sustainably, and responsibly. We strive to give back to our communities and prioritise equality, diversity, and inclusivity, offering fair and equal opportunities to all individuals.

"SPIE UK is committed to improving environmental impact and believe that if we all play our part, we can achieve great results. Moreover, we aim to inspire others by sharing our practices and implementing innovative and sustainable ways of working.

"Our vision is for SPIE UK to be the industry leader in supporting our clients to achieve their sustainability targets. Therefore, CSR is at the heart of our decision-making process and a core element of our business."
