

Mitie works with Royal Mail Group to seal significant energy savings

2 years ago

[Mitie](#), one of the UK's leading facilities management and professional services providers, has been partnering with [EEVS](#) to achieve energy savings for the Royal Mail Group.

Savings of over 16.69 gigawatt hours (GWh) – equivalent to the annual usage of 1,100 UK homes – have been delivered in just 12 months. This is the first year of a five-year partnership which is designed to help Royal Mail Group achieve energy savings of at least 15% across the top 230 energy consuming sites in its portfolio by 2026.

The savings have been verified by EEVS, the UK's leading independent verifier for commercial energy and carbon saving schemes.
