

Phoenix Group consolidates IFM contracts with Mitie

2 years ago

Mitie has been awarded a new contract with Phoenix Group, the UK's largest, long-term savings and retirement business, to deliver integrated facilities management services across the Phoenix Group estate.

The new five-year, £62m contract will cover six locations in five cities nationwide, including Edinburgh, London, Hitchin, Wythall and Telford, and will see Mitie expand its existing relationship with Phoenix Group, with it already providing cleaning services at two sites in Edinburgh.

Under this contract, Mitie will provide an array of facilities management (FM) services including planned and reactive maintenance, cleaning, security, catering, waste management, landscaping, decarbonisation and additional project work. This new partnership will mark the first time all FM services across the Phoenix Group estate have been brought together under one provider, enabling Mitie to provide a truly integrated approach to FM service delivery.

Mitie's sustainability credentials will play a key role in delivering this contract and supporting Phoenix Group's commitment to decarbonisation. With a focus on reducing carbon emissions, Mitie will appoint a designated Plan Zero Energy Manager who will be responsible for identifying energy saving opportunities and reducing energy consumption as part of a carbon performance guarantee.

Mitie will also support Phoenix Group's investment in its people through its 'Connected Workspace' to foster greater levels of workplace connectivity and collaboration. This includes implementing Mitie's market-leading technologies and applications to enhance the workplace experience, optimise the efficiency of services, and facilitate flexible working across Phoenix Group's estate. Mitie will also create a

cultural change programme that aligns with the Phoenix Group's and equality, diversity and inclusion vision.

Simon Venn, Managing Director, Technical Services, Mitie, said: "We're proud that Phoenix Group has entrusted us to bring all their FM services together under our stewardship. We look forward to continuing our partnership, bringing our market leading technology and exceptional people to enhance the workplace experience across Phoenix Group's sites and help make its net zero ambitions a reality."

Jackie Cowper, Premises and Resilience Director, Phoenix Group, said: "We are excited to start a partnership with Mitie and together play our part in helping to create the best place we have ever worked. This collaboration will see a one team approach to enhancing our colleague experience, delivering our sustainability ambition whilst ensuring flexibility in an ever-changing environment."
