Premises & facilities management

AWARDS 2023

FINALIST

[Premier Technical Services Group Ltd \(PTSG\)](#) is a finalist in both the PFM Partnership Awards and the IWFM Impact Awards 2023.

In the PFM Partnership Awards, the Group has been shortlisted for the following:

- Partners in Expert Services - for the work of [PTSG Water Treatment Ltd](#) at Sellafield. Engineers created an on-site Legionella analysis microbiology laboratory, the first Legionella laboratory on a licensed site anywhere in the world.
- Partners in Sustainability - also for the work of PTSG Water Treatment Ltd, this time for client Change Grow Live. Working with the charity, PTSG delivered remote temperature monitoring at over 100 UK sites, saving significant costs, time, water and carbon.

In the IWFM Impact Awards, the Group has been shortlisted in the Product or Service Development category. It is the Lateral Access System developed by [PTSG Building Access Specialists Ltd](#) that has been recognised - the system is delivering substantial savings in costs and time when carrying out maintenance work to the underside of roofing at large buildings.

Innovation is something PTSG invests in within all parts of the Group, from its unique proprietary software system to the client portal which gives clients the power to quickly and easily recall electrical records over a number of years.
