

PTSG to work at West End Gate

2 years ago

Premier Technical Services Group Ltd (PTSG) has been contracted to provide specialist Access & Safety services at a premium new residential development in central London.

Located close to the prestigious neighbourhoods of Marylebone and Little Venice, West End Gate comprises a range of apartments situated around private landscaped gardens. Residents will enjoy first-class facilities including a 24-hour concierge, private cinema room, pool, gym and spa. The cost of new apartments ranges between £800,000 and £1,025,000.

In this contract, engineers from PTSG Access & Safety Ltd will install rope access and fall protection systems to the buildings. This will safeguard maintenance operatives working at high level in the residential neighbourhood.

PTSG Access & Safety Ltd is one of the Group's five independent division, the others being PTSG Electrical Services Ltd, PTSG Building Access Specialists Ltd, PTSG Fire Solutions Ltd and PTSG Water Treatment Ltd. One of PTSG's great strengths is its capability of combining services from the different divisions; this often delivers a complete specialist services solution for customers, saving them the time and expense of hiring multiple service providers.
