

Sodexo retains strategic business in Scotland

3 years ago

Sodexo's [Corporate Services division](#) has secured two three-year contract extensions with Scottish-based businesses Devro and Edrington.

As part of the new contracts Sodexo will introduce its Kitchen Works Co. food offering. Taking inspiration from modern, quick-service restaurants with a home-from-home feel, Sodexo's Kitchen Works Co. provides a range of meal options to cater to a wide range of dietary and culinary needs. It also enables colleagues to refuel and recharge in a welcoming environment focused on flexibility and wellbeing.

Sodexo has partnered with spirits company Edrington for more than 25 years, and in addition to food services it will continue to deliver cleaning and hospitality services at Edrington's manufacturing facility and Head Office in Glasgow.

Sodexo has also extended its contract with food manufacturer Devro for a further three years, with the option to extend for a further two years. A partner for more than ten years, Sodexo will provide the Moodiesburn site in Glasgow with services including hospitality, cleaning, security, vending, and janitorial services. To support Devro in its journey to Net Zero, Sodexo will also be introducing its WasteWatch food waste programme and aqueous ozone cleaning technology.

Julie Ennis, CEO Corporate Services, Sodexo UK & Ireland said: "We have fostered strong partnerships with both Edrington and Devro over the many years we've worked together and are delighted of the confidence and trust they have in our services. Our goal is to continue providing them with flexible solutions that improve the quality of life of their people, using food to fuel productivity, while supporting them with their individual sustainability goals."

Sodexo's Corporate Services business delivers facilities management and food services to more than 800

sites across the UK & Ireland, working with some of the world's most recognisable brands. Its teams have expertise operating across a range of different environments in the corporate sector, including headquarters, regional offices, data centres, manufacturing centres and research and development hubs, in sectors as diverse as professional services, financial services, pharmaceuticals, media and technology.
